

Very Trendy In F Major

Schoolchildren's brains trawled up!
Plastic bag stains and jellyfish stream.
Fishing net retrieval mechanism;
Every hour, every minute, it goes "click!"

It goes "click!"

The same applies to moving your fingertip across a
touchpad—just like using chalk on a blackboard back
in the day!

Abstract constraint hauled up by trawl.
I'll show you more B-roll of this inten-
sive fishing.

What matters most right now? Is it only "reading,
writing, arithmetic, and secularism." Light-bulb
moment... or, or what?

Strained brains! Trained minds.
Straitened souls...
The teacher isn't a slowcoach.

Major krill market—lock away your will for playing.
Promotion of foundational skills.

Miraculous haul at the checkout conveyor of the hy-
permarket of minimal knowledge.
Here is a robot-student and an AI-brain;
One for all, all for one! Ha-ha-ha! All sunny fathers,
no rainy mothers.

Patches of plastic bags and a trail of jellyfish.
Patches of plastic bags and a trail of jellyfish.

Never say "I know nothing," nor say "I know everything."
Miraculous catch of knowledge—here is a robot-pupil and
an AI-brain.

One for all, all for one! Ha-ha-ha!
When you sneeze, you make the sound achoo—put
aside your urge to play.

Major krill market—promotion of foundational skills.
Miraculous harvest on the checkout conveyor belt of the
hypermarket of knowledge in packets.

Schoolchildren's brains trawled up!
Handy-trendy brain.
Mechanism used to haul up the fishing net;
Every second, every minute, it goes "click!"

It goes "click!"

The same applies to moving your fingertip across a
touchpad—bat of an eye at the light-bulb moment!

Abstract constraint hauled up by trawl.
I'll show you more B-roll of this industrial fishing.

Are we still in the old-school era?
What matters most right now? Is it only "reading,
writing, numeracy, and secularism."

Never say "I know everything," nor say "I know nothing."
Miraculous catch of knowledge—knowledge of what?
When you sneeze, you make the sound "Achoo!"—put
aside your urge to play.

Robotics-pupils and AI-brain—what matters
most right now?

Tell me, in your daydreams—torn apart by
gelatinous foam and caught in the monstrous
waves of the neoliberal concrete tsunami—does
the challenge lie in learning how to rise to meet
it, this climate challenge?

Every second, every minute, it goes "click!"

It goes "click!"

"Click..." ("Click?") "Tick..." ("Click-
click!") "Tick?" ("Click!") "Tick." ("Tick-
tick?") "Tick!"
